Skiing above Murren

## World famous resorts of Murren and Wengen from a chalet-hotel in a central location giving excellent value

**Skiing Switzerland is affordable by staying** in Lauterbrunnen at the Rosa or the hotel Silberhorn. Prices of the lift pass and on the mountain are much less than the big Swiss resorts yet the area is world class.

**Enjoy stunning scenery, the Eiger, surrounded by** other impressive mountains, dominates the area with its mile high north face. Visit the Schilthorn, location for an 007 epic, then ski down like James himself.

**Access to the skiing is quick and easy.** Catch the high speed cable car to Murren or relax on the queue free comfortable punctual short ride on the mountain train to Wengen. The total time to the skiing is faster than most resorts and a lot easier. Use Ski Miquel's free equipment store by the lifts, to make the short walk even easier.

**Tradition and modern lifts give a great combination for** today's skier. Many lifts have been upgraded improving access, yet the style of the area where it all began is retained. Visit Murren, site of the world's first ski race.

**Non-skiers are well looked after** as the special Hiking and Sledging pass makes meeting skiing friends easy - the Ski Miquel guides will help co-ordinate lunch stops.

1658 carved on the outside and Swiss 06 on the inside! This house provides the best chalet-hotel accommodation in the programme. You can ski back to the house from Murren for most of the season. Ski Miquel waited a long time to offer a chalet-hotel that does justice to

## Chalet-Hotel Rosa

this dramatic valley. Guests will not be disappointed.

The average room size is larger than all other chalet-hotels in the brochure. The lounge, with log-burning fire, is particularly spacious. Make use of the staff run honesty bar and fridge.

There is a separate dining room served from the professionally equipped kitchen.

The house will hold up to thirty two guests as four of the eleven rooms are large and have extra beds. Make full use of the hot tub. The Rosa is right in the village of Lauterbrunnen, very close to the shops, banks, post office, equipment shop, various bars and cafes. A good local night spot close to the Rosa is the Horner Bar, which offers well-priced drinks.

The village has always made Ski Miquel guests very welcome, the renovation of the Rosa has added to the reception you will enjoy.

## Hotel Silberhorn

This delightful three-star hotel is in the heart of the village, next to the Murren high speed cable car and opposite the train to Wengen. Owned and run by the Von Allmen family. The spacious dining room is elegant and maintains the warmth and character of the original building. There is a lounge, comfortable, individually designed bedrooms; a friendly traditional stubl which is the hub of local village life. The breakfast always includes hams, cheeses, cereals, fruit and much more. Evening meal

consists of four courses, plus a large, colourful salad buffet. A vegetarian variation is available. Beat and Andrea are very much in charge of the Hotel and kitchen and because of the quality of the cuisine, don't need to be persuasive when offering second helpings.

This is an excellent base from which to explore this big area. The changing value of the Swiss Franc has emphasised the exceptional savings of the resort of Lauterbrunnen compared to the other big names in the area.
